## Becoming a Teacher

The legal, ethical and moral implications of entering society's most fundamental profession

Alan Newland

An inspiring and motivating guide to embarking confidently on a career in teaching and, above all, acquiring and developing the essential character traits and values to flourish in it.

Accessible, readable and engaging, *Becoming a Teacher* features a constructive examination of the Teachers' Standards and shares a series of illustrative scenarios, exemplar strategies and practical resources that will equip trainee and early year teachers to deal with a range of contentious and sensitive issues that they are likely to encounter during the course of their career.

Ideal for trainee teachers in all phases of teaching; for lecturers, tutors and course directors at initial teacher training (ITT) institutions; and for ITT and early career mentors and CPD leads in schools.

*"I very much enjoyed the interactivity throughout this book, where the reader is encouraged to reflect upon and consider a variety of issues as well as draw lessons from the personal experiences of Alan himself."*

Adam Robbins is a head of department at a large comprehensive school, where he also oversees and supports teacher development. He is the managing editor at CogSciSci, a grassroots organisation aimed at bringing the findings of cognitive science to the classroom, and is often invited to talk on issues of teaching, learning and pastoral matters, speaking at events including the PiXL, researchED and Association for Science Education (ASE) conferences.

## Middle Leadership Mastery

A toolkit for subject and pastoral leaders

Adam Robbins

Aims to enhance middle leaders' expertise so that they can make informed decisions and communicate them effectively to both staff and students.

For many years school inspections have focused on data-driven outcomes and the role of senior leaders in driving school improvement; recently, however, the focus has shifted to curriculum and middle leadership. This has left middle leaders under increased pressure to be able to justify their actions and decisions.

Adam draws on his 16 years' experience of teaching in a deprived area to illustrate his points with stories and anecdotes from the front line, demonstrating how middle leaders can better understand their context and deliver the best outcomes from a variety of starting points.

*"Adam Robbins has used his extensive knowledge to produce a superb and impressively comprehensive guide – covering curriculum design, assessment, teacher development and more besides – for anyone undertaking one of these all-important roles." – Tom Sherrington, education consultant and author of Teaching WalkThrus*

# Celebrating Teachers

Making a difference

Gary Toward and

Chris Henley

Forewords by Ben Bailey

Smith (aka Doc Brown) and

Sir Anthony Seldon

A feel-good celebration of all that is great about teachers and teaching – and an exploration of the difference teachers make and how they do it.

This book celebrates the superhero of the classroom: the teacher.

Teachers make a difference, and often that difference is life-changing. In this book, Gary and Chris look at some of the many cases where such a difference has been made and examine exactly what it was that made such an impact on the life of the young person – and they also highlight the key approaches that teachers might want to try out in their own classroom, with their own pupils.

An uplifting and insightful read for all teachers and educators.

*"Celebrating Teachers shows exactly why teaching is a wonderful and rewarding career. It shines a light on real teachers, their tireless and motivational work, and how they make a difference every day to so many."*

**– Tim Sutcliffe, Chief Executive Officer, Symphony Learning Trust**

**Gary Toward** is a trainer, keynote speaker and novelist who has previously taught in seven schools countrywide. He was head teacher of three schools in Leicestershire, during which time he co-led a pupil referral unit (PRU) out of special measures.

**Chris Henley** is a trainer and keynote speaker who taught for over thirty years in three different secondary schools. Chris is an inspirational teacher who moved on from leading an outstanding languages department to become a senior leader. Rachel Macfarlane is the Director of Education Services at Herts for Learning having previously been head teacher at three contrasting schools over a 16-year period. Between 2009 and 2018 Rachel was project director of the London Leadership Strategy's Going for Great (G4G) programme, which involved working with leaders of outstanding schools to share great practice and produce case studies for dissemination to London schools.

## Obstetrics for Schools

A guide to eliminating failure and ensuring the safe delivery of all learners

Rachel Macfarlane

Presents a powerful manifesto for school leaders and teachers on how they can bridge the advantage gap and deliver positive outcomes for all pupils.

In most parts of the world, the death of a baby in childbirth is now a rare tragedy rather than a common occurrence – and it would be considered shocking for medical staff to accept a significant infant fatality rate. It's also inconceivable that a hospital would have a successful delivery target much below 100%.

Yet there is an expectation, and acceptance, of 'baked in' educational failure for around a third of 16-year-olds in UK schools each year. Such outcomes need addressing, and this book does just that.

*"Written with passion, care and a deep understanding of the issues, Obstetrics for Schools gets under the skin of what schools and school leaders can do to address inequity in education. Obstetrics for Schools is a triumph, and so timely too. I love it and will be recommending it everywhere I go."* – **Steve Munby, Visiting Professor, Centre for Educational Leadership, UCL**

The authors spell out the importance of CPD and explain how, when done well, it gives teachers the agency to make professional decisions informed by the best evidence and experience they have to hand. Furthermore, they explore how high-quality professional development contributes not only to a collaborative culture within the school staff team and enhanced job satisfaction for teachers, but also to improved student outcomes.

*"The CPD Curriculum is not just an essential book for those in charge of staff development in schools, it is a must-read for all teachers who feel anchorless and adrift on the vast ocean of CPD. It will be your stay." – Haili Hughes, teacher, author, journalist and speaker*

Ideas, assemblies and hard-won wisdom

James Handscombe

Explores how schooling is more than gaining qualifications, how learning is more than exams, and how academic success comes more readily to those who have grasped this idea.

Harris Westminster Sixth Form has had enormous success in providing an academic education for students of all socio-economic backgrounds. This success is grounded in the development of a scholarly ethos that guides students and staff into successful habits – driven by a clear vision for the community and communicated through everything that the school says and does.

In this book, founding principal James Handscombe takes readers through the school's development and illustrates its journey by sharing a selection of the assemblies that have underpinned and elucidated its ethos.

*"Entertaining, thoughtful, stretching and deeply interesting. James Handscombe demonstrates very clearly that while every school leaves a legacy of some kind, a legacy of excellence can indeed be planned for and created with ambition and perseverance."*

**– Sir Dan Moynihan, Chief Executive, Harris Federation**

James Handscombe studied mathematics at Oxford and Harvard before training to be a teacher. He worked in schools in south Wales, Australia and south-east London before becoming the founding principal of Harris Westminster Sixth Form in 2014. He occasionally gets invited to speak at conferences and sometimes finds time to write things – mostly articles for the *TES* and letters to the editor of *The Times*, but he's also written for *Schools Week* and *The Spectator's Coffee House* blog.

## Imperfect Leadership

A book for leaders who know they don't know it all

Steve Munby

Foreword by Michael Fullan

Eloquently reflects upon and describes a leadership approach that is strong on self-awareness and positive about the importance of asking for help.

When asked to describe his own leadership style, Steve uses the word 'imperfect'. This is not something he apologises for; he feels imperfect leadership should be celebrated. Too often we are given examples of leaders who are put on some kind of pedestal, lauded as superheroes who have it all worked out and are so good at what they do that nobody else can come close.

This book is the antidote to that flawed perception. It is about messy, trial-and-error, butterflies-in-the-stomach leadership and about thoughtful and invitational leadership – and the positive impact it can have.

*"A book of breathtaking wisdom. I can't recommend it highly enough."* – **Geoff Barton, General Secretary, Association of School and College Leaders**

Steve Munby has spent his whole career in education, first as a teacher and then as an adviser and inspector before moving into leadership. Between 2005 and 2017 he was chief executive first of the National College for School Leadership in England and then of Education Development Trust, an international education charity. He is now a self-employed consultant and speaker on leadership and on system reform.

## A Curriculum of Hope

As rich in humanity as in knowledge

Debra Kidd

A stimulating manifesto of hope that explores how good curriculum design can empower schools to build bridges between their pupils' learning and the world around them.

A great many schools are wondering how they can build a curriculum model that meets the demands of government policy as well as the needs of the children and communities they serve. In *A Curriculum of Hope*, Debra Kidd illustrates how teachers can deliver learning experiences that genuinely link knowledge to life.

Working on the premise that a strong curriculum is supported by five key pillars of practice – coherence, credibility, creativity, compassion and community – she presents a plethora of examples that demonstrate how schools, parents, pupils and the wider local community can learn together to build from within.

*"I love Debra Kidd's writing. She takes on the orthodoxies of the current educational establishment with wit, wisdom and a shining belief in the myriad, rich possibilities of education and our children."* – **Melissa Benn, writer and author of *Life Lessons: The Case for a National Education Service***

**Debra Kidd** taught for 23 years in primary, secondary and higher education settings. She is the author of three previous books and believes more than anything else that the secret to great teaching is to 'make it matter'. ## Tails from the Classroom

Learning and teaching through animal-assisted interventions

Helen Lewis  
and Russell Grigg

A fascinating exploration of the use of animal-assisted interventions (AAIs) in educational settings and how they can inspire and support learners' all-round development.

There is growing interest in the idea of bringing animals into the classroom, but it is only recently that researchers have gathered clear data to show the impact of AAIs on the behavioural, emotional, physical and cognitive development of children and young people.

*Tails from the Classroom* brings together this research in a highly accessible way, illustrated with real-life case studies from a range of classroom contexts. It also includes lots of practical guidance on how to set up, manage and evaluate a project, ensuring that the welfare of all participants, including the animals, is a priority.

*"An excellently researched, practically focused and well-balanced book examining current evidence and the benefits and pitfalls around the use of animal-assisted interventions (AAIs) as an aid to teaching and learning."* – **John Morris, Director, JTM Educational Consultant**

**Dr Helen Lewis** is Programme Director for PGCE at Swansea University School of Education. Part of her role involves leading an educational anthrozoology module, and undertaking original research into the impact of AAIs in educational settings.

## Powerful Geography

### A curriculum with purpose in practice

Mark Enser

Breaks down the core elements of curriculum planning to empower teachers to design and deliver their geography curriculum effectively.

In recent years the emphasis has shifted away from a focus on pedagogy (the *how* of teaching) and towards curriculum (the *what* of teaching).

Luckily for geography teachers, however, bestselling author Mark Enser provides plenty of insightful, subject-specific guidance in this all-encompassing book.

Mark explores both the purpose of the geography curriculum and its various applications in practice. He details how teachers can take their students' learning beyond the acquisition of knowledge to transform how they see the world. He also tackles the changing nature of school geography, shares a variety of case studies, and offers his take on how best to facilitate geographical enquiry and fieldwork.

*"An enjoyable read. It walks you through some relevant, philosophical and theoretical thinking underpinning curriculum development in accessible and engaging ways."* – **Paula Owens, teacher, consultant and author**

**Mark Enser** has been teaching geography for the best part of two decades and is a head of department and research lead at Heathfield Community College, as well as a specialist leader of education (SLE) and evidence lead in education (ELE). He is a regular *TES* columnist and often speaks at education conferences. Mark also writes a blog called *Teaching It Real* and tweets @EnserMark.

## ASBO Teacher

An irreverent guide to surviving in challenging classrooms

Samuel Elliott

Written by an author who has tasted both failure as a pupil and success as a teacher, this forthright but entertaining book shares the simplest solutions to the toughest problems in today's classrooms.

Foreword by David Didau.

In *ASBO Teacher* Samuel offers no-nonsense principles hewn from the chalkface of the modern British classroom: ideas and approaches that have worked for the author in the most challenging settings and with the most testing pupils.

Covering a range of issues spanning behaviour management, lesson structure, resource preparation and narratives in the classroom, the book is a blueprint for becoming a particular kind of teacher – one who has high expectations, a concern for pupil well-being, and a knack for ushering learners into more effective learning.

*"A survival guide for working with challenging students in challenging schools – and, as such, is a beacon burning in the darkness and will provide much needed succour and support for those who need it most."* – **David Didau, author of *Making Kids Cleverer***

## The Monkey-Proof Box

Curriculum design for building knowledge, developing creative thinking and promoting independence

Jonathan Lear

A manifesto on how to dismantle the curriculum we're told to deliver and construct in its place the curriculum we need to deliver.

*"If you would like your pupils to get more enjoyment out of challenging tasks, then this is the book for you! The Monkey-Proof Box offers some lovely ideas for encouraging children to step out of their comfort zone, unleash their curiosity and apply their creative thinking.*

*The book's title comes from a scene in a nature documentary in which a group of monkeys were faced with a 'monkey-proof box', which prompted them to display a great degree of curiosity and creativity in order to extract the food from within it. And so it could be with pupils: not in terms of food perhaps, but certainly in terms of classroom culture. If we replace easy with engaging, straightforward with puzzling, and simple with stretching, then we could engage similar levels of innovation and determination in our learners. Imagine how productive that could be!"*

**– James Nottingham, creator of the Learning Pit**

Described as having a breathtaking understanding of how to engage children, **Jonathan Lear** is an award-winning teacher, education consultant and author. He has worked for many years on a compelling mix of inspirational teaching strategies, and has shared his passion for learning as an advanced skills teacher, a deputy head and an Associate of Independent Thinking.

# Books for Teachers

## Troubled Hearts, Troubled Minds

Making sense of the emotional  
dimension of learning

Peter Nelmes

Delivers key lessons on how we can better connect with both the head and the heart during the teaching and learning process.

How are we to think of the disruptive or destructive child?

Drawing on over 25 years of experience working with children with challenging behaviour, Peter Nelmes argues that such children are members of a community who are possibly the least understood and accepted in society – and whose problems are often met with condemnation rather than understanding and support.

If you have ever struggled to teach – or even just connect with – a troubled child, then this book is for you.

*“A refreshing perspective from a teacher who has actually walked the walk and doesn't just talk the talk. A true expert!”*

– **Dave Whitaker, Director of Learning,  
Wellspring Academy Trust**

**Peter Nelmes** has worked with children with challenging lives and challenging behaviour since 1990. As part of his endeavours to make sense of his professional world, he gained a doctorate in education – the subject of which was the role of the emotions in teaching and learning. He has taught and researched in a variety of settings, and has also been an associate lecturer for the Open University.

**Jackie Ward** was a primary school teacher for over 25 years and a deputy head and special educational needs coordinator (SENCO) at a primary pupil referral unit (PRU) for eight years prior to taking early retirement and setting up her own business in 2016. She is now an independent behaviour and SEND consultant working in mainstream primary and secondary schools.

## On the Fringes

Preventing exclusion in schools through inclusive, child-centred, needs-based practice

Jackie Ward

Opens up the debate surrounding school exclusion and its link to special educational needs (SEN), and sets out action-oriented strategies designed to bring about a more inclusive approach.

*On the Fringes* scrutinises exclusion procedures and reviews the SEND Code of Practice in depth, particularly highlighting the role of early interventions in detecting underlying SEN and medical needs. Jackie also explores a range of pre-emptive and alternative approaches that can be employed as part of a whole-school approach to pastoral care and behaviour management that develops pupils' self-awareness and self-regulation.

*"This beautifully crafted book has a heart, which is driven by the need to get the best available support and help for the most important people in our schools: the children and young people we teach."* – **Nina Jackson, author, award-winning speaker, mental health ambassador and education consultant, Teach Learn Create Ltd**

## Character Education and Life Skills

## After the Adults Change Achievable behaviour nirvana

Paul Dix

Paul Dix explains how teachers and school leaders can move beyond the behaviour management revolution and maintain a school culture rooted in relational practice.

A revolution in behaviour can be exciting, dynamic and, at times, pleasantly terrifying. But revolution is short-lived. In this follow-up to his bestselling book *When the Adults Change, Everything Changes*, Paul shows you that, after the behaviour of the adults has changed, there is an opportunity to go wider and deeper: to accelerate relational practice, decrease disproportionate punishment and fully introduce restorative, informed and coaching-led cultures.

Also available as an audiobook,  
ISBN 978-17813539-6. 

*"It acts as a mirror: inspiring deep reflection as you read, as well as bursts of pride when you see your own context reflected in the words."* – **Anna Kyrk, Head of Middle School, School 21**

As a teacher, leader and teacher trainer, [Paul Dix](#) has been working to transform the most difficult behaviour in the most challenging urban schools, referral units and colleges for the last 25 years. In addition to working directly with schools, Paul has advised the Department for Education on the Teachers' Standards, given evidence to the Education Select Committee and done extensive work with the Ministry of Justice on behaviour and restraint in youth custody.

## The Kindness Principle

Making relational behaviour management work in schools

Dave Whitaker

Advocates a behaviour management approach rooted in values, acceptance and a genuine understanding of children's behaviour.

*The Kindness Principle* begins with the idea that relationships should be at the heart of behaviour management and culture, and sets out the ways in which the adoption of relational approaches can help create safer and happier schools. Schools where all staff and learners are valued and understood, where expectations and standards are high, and where kindness and acceptance matter.

Dave Whitaker explores why it is so important to understand children – offering techniques and advice on how to work effectively with all children (even the most challenging and troubled ones) without resorting to zero-tolerance, no-excuses and consequence-driven practices.

*"A must-read book for enlightened educators which provides a practical guide to relationships-led practice."* – **Dr Pooky Knightsmith, expert on child and adolescent mental health**

# Independent Thinking on Restorative Practice

Building relationships, improving behaviour and creating stronger communities

Mark Finnis

A practical and inspiring introduction to the use of restorative practice in schools in order to improve behaviour, foster a more caring culture and forge relationships that work.

For those educators who are uncomfortable with the punitive world of zero tolerance, isolation booths and school exclusions, Mark Finnis – one of the UK's leading restorative practice experts – is here to show you that there is another way.

Drawing on his many years' experience working with schools, social services and local governments across the country, Mark shares all you need to know about what restorative practice is, how it works, where to start and the many benefits of embedding a relational approach into any educational organisation that genuinely has people at its heart.

*"Practical, authentic and intelligent, this book is crucial for anyone serious about a relational approach to teaching."*

– **Paul Dix, behaviour specialist,**  
**WhenTheAdultsChange.com**

Mark Finnis is one of the UK's leading exponents of restorative practice and in 2019 he received the Chris Donovan Trust's Restorative Practice Champion award in recognition of his work. With many years' experience of working with schools, local government agencies and social services, he is in demand as a speaker and trainer.

As a teacher, leader and teacher trainer, **Paul Dix** has been working to transform the most difficult behaviour in the most challenging urban schools, referral units and colleges for the last 25 years. Paul has advised the Department for Education on the teachers' standards, given evidence to the Education Select Committee and done extensive work with the Ministry of Justice on behaviour and restraint in youth custody.

## When the Adults Change, Everything Changes

Seismic shifts in school behaviour

Paul Dix

Opens the debate on behaviour management in schools and offers effective tips and strategies that serve to end the search for change in children and turn the focus back on the adults.

*When the Adults Change, Everything Changes* illustrates how, with their traditional sanction- and exclusion-led methods, the 'punishment brigade' are losing the argument. It outlines how each school can build authentic practice on a stable platform, resulting in shifts in daily rules and routines, in how we deal with the angriest learners, in restorative practice and in how we appreciate positive behaviour.

Also available as an audiobook, ISBN 978-178135336-3. 

*"This book is packed with practical advice that you can start using tomorrow: however, Paul makes it very clear that you must commit to working on your own behaviour before things will truly change." – Jarlath O'Brien, Head Teacher, Carwarden House Community School*
